

Keep K-Love on the air. I listen to K-love when ever I am in my car, its encourging and helps me think of new ways to encourage others. I beleive that a large number of Christians in the area listen to Klove, and its somthing that we all share in common. IF it were to be replaced with more negative music, what good would that do anyone? Please keep klove rolling. The more people that experience Klove, the more positive people will find themselves and others.
